

PRESERVING ONTARIO'S HEADWATERS

A community workshop with the Elora Environment Centre

Headwaters consist of small streams and wetlands. Together, they constitute most of the length and provide the majority of the flow, nutrients, organic material, and niche habitats of our watercourses.

To help preserve these valuable components of our regional ecosystems, please join us at a community workshop to discuss:

- the importance of Ontario's headwaters,
- current policy & stewardship initiatives, and
- collaborative efforts for the future.

The workshop is part of a series being coordinated by the Ontario Headwaters Institute thanks to funding from the Ontario Trillium Foundation and extensive support from conservation authorities and both local event and regional communication partners, including the Elora Environment Centre.

When 6:30 – 9:00 pm, Monday, March 29, 2010

Where Harris Room, Elora Centre for the Arts
75 Melville Street, Elora

Agenda

6:30 - 7:00	Arrivals, Coffee
7:00 – 7:15	Welcome and Round-table Introductions Lynda Bausinger, Elora Environment Centre
7:15 – 7:45	Preserving Ontario's Headwaters Andrew McCammon, Ontario Headwaters Institute
7:45 – 8:00	Q&A
8:00 – 8:45	Community Workshop: Strengths, Challenges, & Opportunities for Future Collaboration
8:45 – 9:00	Shared Thoughts in a Closing Plenary

Registration is free but required in advance, just so we know how many chairs and how much coffee are needed.
