

PRESERVING ONTARIO'S HEADWATERS

An information workshop with the Ontario Headwaters Institute

Headwaters consist of small streams and wetlands. Together, they constitute most of the length and provide the majority of the flow, nutrients, organic material, and niche habitats of our watercourses.

To help preserve these valuable components of our regional ecosystems, please join us at a community workshop to discuss:

- the importance of Ontario's headwaters,
- current policy & stewardship initiatives, and
- collaborative efforts for the future.

The workshop is part of a series being coordinated by the Ontario Headwaters Institute thanks to funding from the Ontario Trillium Foundation and extensive support from conservation authorities and both local event and regional communication partners, including Otonabee Conservation and Peterborough Green-up.

When 1:00 – 3:00 pm, Thursday, March 25, 2010

Where Auditorium, Peterborough Public Library
345 Aylmer St. N., Peterborough

Agenda

| | |
|-------------|--|
| 1:00 – 1:15 | Arrivals, Coffee |
| 1:15 – 1:45 | Welcome and Participant Introductions Alix Taylor, Water Program Coordinator Peterborough Green-Up |
| 1:45 – 2:30 | Preserving Ontario's Headwaters Andrew McCammon, Ontario Headwaters Institute |
| 2:30 - 3:00 | Discussion on Headwater Strengths, Challenges, & Opportunities for Future Collaboration |
